Engineering Student

PROFILE

Engineering student in the Fluid Mechanics, Energetics, and Environment department at ENSEEIHT. My ultimate career goal is to become an Aerodynamics Engineer working on systems ranging from aeronautics to aerospace.

EXPERIENCE

Volunteer Work 09/2023 – Present (3 years)

- **Sports:** Event logistics support (athletics, judo, water sports) and training session design for a 30-member run club.
- **Social Advocacy:** Active member of a student association fighting against Gender-Based and Sexual Violence (VHSS).
- **Environmental:** Facilitation of Climate Collage workshops and participation in clean walks.

Babysitter 12/2022 – Present (4 years)

Occasional childcare for children aged 1 to 12 during school holidays, events, evenings, and weekends.

Responsibilities include meal preparation, hygiene/bath care, activity leading, and bedtime routines.

EDUCATION

Master of Engineering Degree (Diplôme d'Ingénieur) 09/2026 (Expected) – Ongoing
ENSEEIHT – Toulouse, France

Specialization: Fluid Mechanics, Energetics, and Environment

Intensive Preparatory Classes (CPGE MPSI-PSI) 09/2023 – 06/2026
Lycée Jean Dautet – La Rochelle, France

Two-year intensive undergraduate program in Mathematics, Physics, and Engineering Sciences

French High School Diploma (Baccalauréat) 09/2020 – 06/2023
Lycée de la Mer – Gujan-Mestras, France

Specializations: Mathematics & Physics - Advanced Mathematics Option | Honors: Mention Bien (Honors)

CERTIFICATES & TRAINING

Aeronautical Initiation Certificate (BIA): Obtained in 2019 with Honors (Mention).

PROJECTS

- **ASTRE'LAUNCH:** Member of the Recovery Sub-team; design of a recovery module for an experimental rocket.
- **Supervised Personal Initiative Projects (TIPE):**
  - *Year 1 (3/2):* "Study of Atmospheric Re-entry for a Space Shuttle."
  - *Year 2 (5/2):* "Energy-Harvesting Suspension with Force Control."
